27 April 1956

MEMORANDUM FOR: Project Security Officer

THROUGH : Project Director of Administration

SUBJECT : Security Clearance -

25X1

1. We received the nomination of subject from the Air Force on 19 December 1955 and Security was initiated on 21 December 1955. Subject has been slotted on Position A-8198, Administrative Clerk, Detachment B.

2. A Provisional Clearance was granted by the Office of Security on 15 February and subject reported in PCS to the 1007th on 19 March 56. Building 13 interview was held on 21 March and a Medical clearance was received on 23 March 1956.

3. As you are aware, we have repeatedly requested a decision from the Project Security Officer as to the disposition of this case. As the subject has now been in the Headquarters area for five weeks without a job, he daily becomes more of a morale problem for all concerned. Although we realize that full opportunity must be given before a decision as to the Security acceptability of any individual may be made, we do believe that this case has run an excessively long period in view of the procedures established for effecting security clearances for this Project.
